Milgard WINDOWS & DOORS

TUSCANY® SERIES

Premium Vinyl Windows & Patio Doors
For New Construction or Replacement
Durable and Beautiful

Discover the *Possibilities*

Elegant design. Endless possibilities.

Tuscany® Series vinyl windows and patio doors offer you endless possibilities no matter the style—or size—of your home project.

With equal sight lines and a frame shape that creates shadow lines, Tuscany Series vinyl windows are very much in the architectural styling of wood windows.

But because they are made from our own durable premium vinyl, Tuscany Series windows have superior performance and energy efficiency.

Tuscany Series windows and doors give you choices:

- A broad range of operating styles
- Custom sizes for any specification
- Unique shapes and limitless combinations
- Innovative features such as the SmartTouch® window lock and door handle
- Multiple design options for grids, glass and colors

Full Lifetime Warranty

At Milgard, we build our windows and doors to last. With the dedication to quality that we put into building the best windows in the business, it wouldn't make sense to back them with anything but the best warranty in the business.

That's why we back every properly installed window and door for as long as the homeowner owns their home – including parts and labor. It's why you can be sure you won't find any windows better than Milgard.

For complete warranty details, visit milgard.com.

PARTNER

Quality

Milgard offers award-winning windows and patio doors built for long-lasting comfort. For over 50 years, industry experts have consistently recognized Milgard as a trusted brand. By producing our vinyl and fiberglass frame materials in-house, we can more closely monitor for quality control. Milgard windows and patio doors stand up, while standing out.

Experience

Since 1962, Milgard Windows & Doors has designed and assembled superior, top quality windows and patio doors, backed with a Full Lifetime Warranty. Milgard engineers are known for their industry-leading designs using patented technologies. Whatever your project calls for, Milgard has the right product that can beautifully reflect your vision. From new construction to home remodeling, all Milgard windows and doors are custom made to your exact specifications.

Service

We serve the Western U.S. and Canada with a dozen full-service facilities and customer care centers. Our belief is that by being close to our customers, we can provide you better service.

Behind great *Windows*

We thought of everything

- Worry-free vinyl construction that won't corrode and does not need to be painted
- The look of traditional wood windows with even sight lines
- Custom sizes built to your exact specifications with no extra lead time
- Innovative SmartTouch® window and door locks
- Folding, nesting operator handles on awning and casement styles
- Vent stops for added peace of mind when children and pets are present on single hung, double hung and horizontal slider windows
- Pull rail screens that make removing and inserting easier
- Endless combinations of windows, doors, transoms, and sidelites in any array you can imagine
- Multiple frame types allow for use in both new construction and replacement applications

Built for *Performance*

Windows and Doors for the Energy-Conscious Homeowner

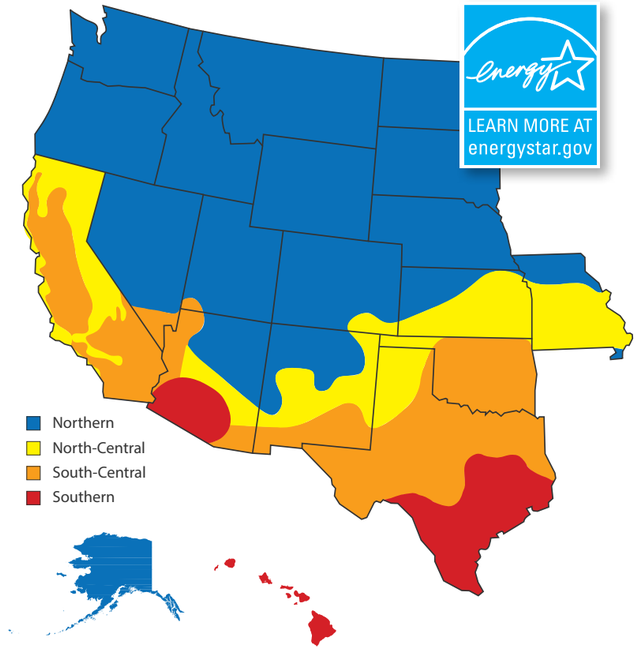
At Milgard, we help homeowners make an impact on their energy consumption through our energy-efficient windows and patio doors. Leaky and inefficient windows and doors account for poor insulation and higher energy usage in households. Energy loss can happen in two ways and a lot depends on where you live:

- Cold climates lose energy in the form of heat
- Hot climates lose energy in the form of cooling

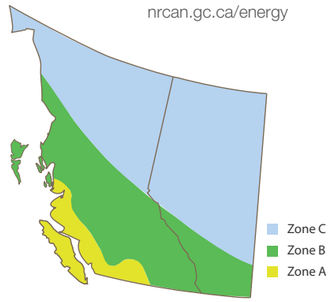
Tested and Built for Your Climate

All Milgard windows and patio doors are designed to meet tough thermal and solar requirements of state and local jurisdictions. We conduct thermal simulations to improve energy performance in our windows and patio doors so our consumers can enjoy a more comfortable home. We make it easy to meet local energy codes and green building efficiency standards with a selection of performance enhancing features. In fact, Milgard has options available to tailor the components of windows and doors to specific climates—perfectly matching the product to your region's energy needs.

Milgard adheres to ENERGY STAR® v6 requirements to meet or exceed U-Factor and Solar Heat Gain Coefficient (SHGC) criteria for the zones shown.



ENERGY STAR® Canada
nrcan.gc.ca/energy



Milgard also offers high energy performance options for the ultimate in energy efficiency.

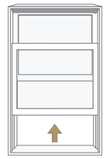
Zone	U-Factor	SHGC	Your energy efficient windows could include one or more of the following features based on your climate.
ENERGY STAR v6 Northern	0.27	-	SunCoat® or SunCoatMAX® EdgeGardMAX™ Argon or Krypton 4th Surface Triple Glaze
ENERGY STAR v6 North-Central	0.3	0.4	
ENERGY STAR v6 South-Central	0.3	0.25	
ENERGY STAR v6 Southern	0.4	0.25	
R5	0.20		

Define your home with *Windows*

Tuscany® Series vinyl windows can be combined into just about any configuration you can dream up. Each window is custom made to your specifications using our signature vinyl formulation and crafted with innovative hardware.

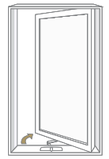
HORIZONTAL SLIDER

Horizontal Slider (also known as half-vent) windows open with the sash sliding left or right. In a single slider, one sash slides to open. In a double slider, both sashes open or consider extra-wide windows with a slider on both sides. Since they open and close without protruding, horizontal sliders are an excellent choice for rooms facing walkways, porches or patios.



SINGLE HUNG DOUBLE HUNG

In the single hung window, the bottom sash moves up to open and allow in air flow and the top sash is fixed. With double hung windows, the top sash also operates for more ventilation. Since they operate without protruding, single and double hung windows are an excellent choice for first-story rooms. Consider combining them with picture windows or as a segment in a bay or bow window.

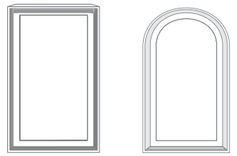


CASEMENT

A casement window is hinged at the side and opens outward like a door. Unlike single hung or sliding windows, a casement window has no rail for an unobstructed view. If you're installing windows over a sink, countertop or appliance, a casement window with a crank can be the perfect solution.

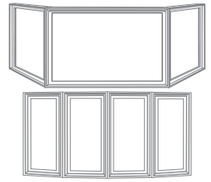
AWNING

Awning windows are hinged on top and open outward, enabling ventilation without letting in rain or falling leaves. They are a great choice to pair with non-operable windows, such as above or below a picture window.



PICTURE AND RADIUS

Like the art on the walls, picture windows are the frame for your view. With picture windows, you can frame your view in just about any shape or size. Choose round top, arch top, rounds, octagons, and gables. Combine picture windows with any operating style, and use in any room.



BAY AND BOW

Bay windows are 3-segment units that expand your space to the outdoors. Bow windows are multi-segmented units that create dramatic circular spaces. Add function to both by selecting your choice of operating styles for the segments.

Sliding *Patio Doors*

SmartTouch®

Window Lock and Door Handle

It's the easiest, smartest way to lock and unlock a window or door, and also assures you that when your window is closed, its locked.

Responding to consumer needs for products that are easy to operate and maintain, Milgard developed the innovative SmartTouch window lock and door handle.

SecurityMAX™ Package and SmartTouch Bolt for Sliding Patio Door

The SecurityMAX package includes the multi-point locking system paired with the new, innovative SmartTouch Bolt, a fully integrated, easy-to-use steel bolt that secures your sliding patio door firmly into the top frame with the flip of a lever.

Together, SmartTouch Bolt and the multi-point locking system provide five points of security on your patio door.*

* Locks are designed to improve security but are not guaranteed to keep intruders out under all circumstances.
